

## **ATLAS.DOC – ATLAS LOCKSMITH SOLUTIONS LLC’s CRIMINAL ACTIVITIES**

This document [ATLAS.doc](#) and its companion documents [Atlas\\_Phone\\_Numbers.xls](#) and [\(866\) 613-0727.doc](#) are the product of between 100 and 200 hours of intense internet research and cross-referencing among the documents. What these documents show, when taken together in context that as of 6/6/2009 I have confirmed through my research that ATLAS is advertising over 200 telephone numbers, 260 addresses, and 83 names (12 registered with the state and 70 plus that are unregistered).

**My methodology:** I started with the website <http://www.atlaslocksmithphx.com/> where I discovered that on the right side of the page they have a listing of cities they serve. When I opened each city’s page one by one, I found that they had a separate telephone number associated with that city. I then did internet searches on each individual telephone number and started making a record of all of the names and addresses returned by the search engine(s) and attempted to put them into some logical format. These results are depicted in Section 1 where the telephone numbers from the website are in purple and below each number is a listing of all information that I was able to locate, along with the source URL’s of that information. Under each listing in red is the real company(s) that inhabit the address that ATLAS claims to have some connection with.

Section 2 results from my study of public records of names that ATLAS has filed with the State of Arizona. I performed web searches on each of their registered names and listed all of the hits for each name complete with source URL, the name, address, and telephone number being used.

Section 3 contains Misc. references to ATLAS entities and Misc information in a less structured random format. I used this area to “park” information that I didn’t have a structure established for. Basically I didn’t take the time to clean it all up real pretty...

Section 4 contains the legal filing information about ATLAS, and others that I have been able to acquire from the internet.

While in some places I may have edited the listings so they don’t appear exactly as shown on the corresponding URL, I did not change any substantial facts that I discovered. The editing that I did was for formatting and space. Examples of my editing of the data in these documents follows:

Changing the order of data fields within a record. For instance moving the telephone number from the middle of the record to the end of the record to maintain consistency of readability.

Truncating the ZIP+4 to only the zip code and in some instances eliminating the zip code altogether for readability depending on line length. My theory behind this is that anyone familiar with Maricopa County would recognize that an address such as “5230 W Baseline Rd, Laveen, AZ” would be recognizable, to the point that a reasonable person could drive there easily, and the addition or subtraction of a zip code would not be meaningful to the casual observer. Some listings I found on the internet had multiple phone numbers listed. When one was already associated with ATLAS that was, for the purpose of this exercise, proof that the other numbers contained in that listing were also connected with ATLAS. This is based on the theory that it would not be in ATLAS best interest to advertise phone numbers or internet URLs that are not connected to their operations.

**SECTION 1 – Information derived from ATLAS website and cross-referenced by searches.**

**The information from their website is in purple...**

The format of this document is mostly as follows:

<http://URL.url> This is the URL where the information under it is found.

“LOCKSMITH COMPANY NAME, address, phone, etc. “

**Info under listing indicates the “REAL” occupant of the address specified in the ad/listing.**

**From their website --<http://www.atlaslocksmithphx.com/>-----**

**SECTION 3 – Misc. references to ATLAS entities and Misc information in a less structured random format. Basically I didn't take the time to clean it all up real pretty...**

This is interesting... While investigating and calling numbers one of the ATLAS guys called me back from 602-663-2421.

When I did a google search on that number, I got the following:

<http://www.hotfrog.com/Companies/Your-Local-Locksmith-24-7>

Your Local Locksmith 24-7 4023 n 44th st, Phoenix, AZ 85018 602-663-2421

<http://www.emergencyphoenixlocksmith.com/>

TelcoData.US says this is a Verizon wireless number.

<http://atlaslocksmithphx.com/>
