

# COMPLETE LOCKSMITH

Starting with website: [www.completelocksmith.com](http://www.completelocksmith.com).

Procedure: Google search on each of the listed telephone numbers. Copy URLs containing probative data as well as the listing data to this document. The results on the toll-free number indicate that these scammers are working it nationwide in several markets. Calling any of the so-called local numbers in Boston, Baltimore, Minneapolis, Salt Lake City or elsewhere results in being connected to the Tempe Call center. Once I start entering phone numbers and addresses into the Google search engine it is almost like the results are non-stop.

One entry leads to a spider-web of successive leads that spider into many more results ad. Infinitum.

Rather than dedicating many more hundreds of hours into researching this scammer company's listings, after about 3 days of research I am aborting further search activities for COMPLETE as an exercise in futility and further research will likely result in less information than can be obtained with a couple well placed subpoenas and several interrogatories / requests for admissions.
